

TEDDY Working Group on Health Data & Real-World Evidence

Working Group Chair:
Annalisa Landi

The WG on Health Data & Real-World Evidence aims to provide contribution to the European Network of Centres for Pharmacoepidemiology and Pharmacovigilance (ENCePP), in which TEDDY is represented and focused on the paediatric aspects . Members of the Health Data & Real-World Evidence WG are actively involved in the activities of the dedicated ENCePP Working Groups and Special Interest Groups, based on their interests.

Mission

To strengthen paediatric representation within ENCePP by actively contributing to pharmacoepidemiology and pharmacovigilance initiatives across Europe translating real-world evidence into safer medicines for children.

Objectives

- Represent paediatric interests within the European Network of Centres for Pharmacoepidemiology and Pharmacovigilance (ENCEPP).
- Contribute to EMA public consultations, including one on Patient Experience Data.
- Actively engage in ENCePP Working Groups and Special Interest Groups aligned with paediatric pharmacoepidemiology.

Main Activities

- Participate in ENCePP Working Groups on AI in pharmacoepidemiology, pragmatic trials, and real-world data.
- Contribute to EMA public consultations, including on Patient Experience Data.
- Publish research and descriptive analyses on paediatric post-authorization studies.
- Maintain ongoing engagement in ENCePP Special Interest Groups based on members' expertise.

Benefits for Participants

- Direct involvement in ENCePP Working Groups and Special Interest Groups.
- Access to a pan-European pharmacoepidemiology and pharmacovigilance network.
- Opportunities to co-author scientific publications on paediatric real-world evidence.
- Contribute to EMA consultations and shape regulatory thinking on paediatric data.
- Stay at the forefront of emerging methodologies including AI in pharmacoepidemiology and pragmatic trial.

How to Join the Working Group
