TEDDY General Assembly and Scientific Meeting

UNIVERSITY OF BARI ALDO MORO, BARI, ITALY

18 - 20 SEPTEMBER 2026

PROGRAMME HIGHLIGHTS

INNOVATION, EVIDENCE GAPS AND SOLUTIONS FOR CHILDREN

Exploring innovative approaches to address evidence gaps in paediatric development, from translational science and regulatory pathways to real-world evidence, digital technologies, biomarkers, and precision medicine.

FROM INNOVATIVE CONCEPTS TO TRIAL READINESS - ADVANCING CLINICAL RESEARCH IN RARE DISEASES

Exploring innovative strategies to translate promising concepts into trial-ready approaches for rare diseases, with a focus on patient involvement, research methodologies, and solutions for small populations.

THE ROLE OF PATIENT ENGAGEMENT IN SHAPING PAEDIATRIC RESEARCH

Highlighting the meaningful involvement of young patients in shaping paediatric research, building patient advocacy capacity, and raising awareness of the importance of children's voices in health research.

DEDICATED PARALLEL SESSIONS WITH CHILDREN AND YOUNG PEOPLE

The programme will include dedicated parallel sessions in which children and young people will participate directly, share their perspectives and contribute to discussions on paediatric research and future training.

Join us in Bari for three days of scientific exchange, collaboration and innovation in paediatric research.
